

MY LIFE AS A CHAIR

Closely exam the image of this chair and try to imagine how it was made. Was the chair made by a person using tools or did a machine make it? What clues tell you this? What material is this chair made of? Where might these materials have come from?

What would it feel like to sit in this chair? Circle any of the words below that describe how this chair should feel.

	bumpy	comfortable	cold
hairy	smooth	sticky	soft
hard	uncomfortable	wet	

What type of setting/room was this chair intended for? What types of activities would people have done while sitting in this chair? Why would a museum collect this chair?
