

Steep Cliffs
The cliffs of Tomales Point are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Because of falling rocks, walking below cliffs is dangerous. Keep away!

High Tide
Check tide tables before walking on beaches. Rising water can trap you against a cliff with no possibility of escape.

Heavy Surf
The pounding surf, rip currents, and severe undertow are treacherous, especially at McClures Beach, Kehoe Beach, and Point Reyes Beaches North and South. Stay away from the water.

Park boundary extends ¼ mile from shore

Steep Cliffs
The cliffs of the Point Reyes and Chimney Rock Headlands are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Because of falling rocks, walking below cliffs is dangerous. Keep away!

Pets
All pets must be restrained at all times while in the Seashore on a leash no longer than six feet. Pets may not be tied to an object and left unattended, or be allowed to make unreasonable noise.

Steep Cliffs
The cliffs above Wildcat Beach and in the Alamere Falls area are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Because of falling rocks, walking immediately below cliffs is dangerous. Keep away!
