

# PACIFIC OCEAN

### Steep Cliffs

Stay on designated trails. The cliffs of Tomales Point are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Keep away!

### Heavy Surf

The pounding surf, rip currents, and severe undertow are treacherous, especially at McClures Beach, Kehoe Beach, and Point Reyes Beaches North and South. Stay away from the water.

### High Tide

Check tide tables before walking on beaches. Rising water can trap you against a cliff with no possibility of escape.
